

# Tobacco Sales in Atlanta

In 2019, total tobacco sales equaled **\$9.7M/year** or **\$27K per day**. This included cigarettes, vaping products, smokeless tobacco, cigars, and loose/pipe tobacco.

Tobacco sales data (Dec. 30, 2018 to Dec. 28, 2019) were licensed from Nielsen, a company that collects proprietary data from convenience stores (chains and smaller independent stores) as well as supermarkets, pharmacies, mass merchandisers (e.g., Walmart/dollar stores), and military commissaries. Nielsen data do not include liquor stores, smoke/vape shops, and online sales.

## Cigarettes

**Cigarettes** were **86%** of tobacco dollar sales.

**48%** of cigarette sales were for **menthol-flavored cigarettes**.

Average pack price:

<b>\$5.08</b>	<b>\$5.42</b>
non-menthol	menthol

## Cigars

**57%** of cigar dollar sales were for cheap **packs of 2**.

At least **264 different cigar products** (including cigarillos, large cigars, premium cigars, and little filtered cigars) were sold.

## Pod Vaping Products

In one year, stores sold approximately **97 pods per day**, totaling **\$159K**.

*The Nielsen data underestimate vape product sales. The sales period (12/30/18-12/28/19) occurred after JUUL Labs announced its intent to discontinue US retail distribution of some flavored pods (except mint, menthol, tobacco), and preceded the federal sales restriction on flavored pod/cartridge products.*

**67%** of pod dollar sales were for mint/menthol flavors.
